

JEREMIAH SIMON SARMIENTO

WORDPRESS DEVELOPER | WEB DESIGNER | WEBSITE QA

WORK EXPERIENCE

SENIOR WEB DEVELOPER

Digitiza | Full-Time Freelance

Mar 2024 – Sep 2026

- Design, develop, and launch 2–4 responsive, SEO-optimized WordPress websites per month, based on project demand, using Elementor
- Manage and maintain websites for 20+ clients, ensuring functionality, visual consistency, and up-to-date plugins while adding landing pages and blog posts each month
- Resolve 20–30+ website revision tickets per month, based on client requests and workload, covering content and layout changes, troubleshooting, form integrations, responsiveness, and functionality
- Conduct website QA to ensure responsiveness, functionality, link accuracy, and design consistency while implementing on-page and technical SEO best practices
- Manage staging environments, DNS settings, and staging-to-live deployments, including post-launch functionality checks

WORDPRESS ELEMENTOR DESIGNER

TwinScroll | Part-Time Freelance

Feb 2024 – Mar 2026

- Built 2–3 responsive WordPress websites per month, based on project assignments, for automotive detailing businesses using Elementor
- Designed reusable website layout templates to streamline development and improve consistency across future client projects
- Produced SEO-friendly website content using ChatGPT and Claude to support client branding, content quality, and user engagement
- Implemented on-page and technical SEO best practices, including metadata optimization, keywords, site speed, and website performance

SENIOR ASSOCIATE WEB DEVELOPER

Affinity Express Inc.

Oct 2021 – Mar 2024

- Served as Point of Contact (POC), supporting the Team Lead with workload assignments, task priorities, and deadline tracking
- Cross-trained as a Web Designer and QA Specialist for the GoDaddy account, supporting both development and quality assurance
- Performed website QA to identify and resolve issues with links, layout, content, responsiveness, performance, and functionality

ASSOCIATE WEB DEVELOPER

Affinity Express Inc.

Jan 2019 – Oct 2021

- Built responsive WordPress websites using Beaver Builder and Adobe Photoshop, including one-page, multi-page, and WooCommerce sites based on client specifications and project requirements
- Performed website maintenance and revisions, including content updates, performance optimization, troubleshooting, and client-specific requests

ABOUT ME

Senior WordPress Web Developer with 7+ years of experience designing, building, maintaining, and optimizing responsive WordPress websites using Elementor and Beaver Builder. Experienced in website maintenance, troubleshooting, QA testing, WooCommerce, form integrations, technical SEO, and managing staging environments, DNS settings, and staging-to-live deployments. Skilled in Adobe Photoshop and Canva, with professional experience across both agency and freelance environments.
